

# My Asthma Plan

Your asthma plan tells you when to take your asthma medicines.

And what to do when your asthma gets worse.

Name: \_\_\_\_\_

## 1 My daily asthma medicines

- My preventer inhaler is called \_\_\_\_\_ and its colour is \_\_\_\_\_
- I take \_\_\_\_\_ puff/s of my preventer inhaler in the morning and \_\_\_\_\_ puff/s at night. I do this every day even if I feel well.
- Other asthma medicines I take every day:  
\_\_\_\_\_  
\_\_\_\_\_
- My reliever inhaler is called \_\_\_\_\_ and its colour is \_\_\_\_\_  
I take \_\_\_\_\_ puff/s of my reliever inhaler (usually blue) when I wheeze or cough, my chest hurts or it's hard to breathe.
- My best peak flow is \_\_\_\_\_

## 2 When my asthma gets worse

I'll know my asthma is getting worse if:

- I wheeze or cough, my chest hurts or it's hard to breathe, or
- I'm waking up at night because of my asthma, or
- I'm taking my reliever inhaler (usually blue) more than three times a week, or
- My peak flow is less than \_\_\_\_\_

If my asthma gets worse, I should:

Keep taking my preventer medicines as normal.  
And also take \_\_\_\_\_ puff/s of my blue reliever inhaler every four hours.

 If I'm not getting any better doing this I should see my doctor or asthma nurse today.

Does doing sport make it hard to breathe?

If YES  
I take:  
\_\_\_\_\_ puff/s of my reliever inhaler (usually blue) beforehand.

Remember to use my inhaler with a spacer (if I have one)
