

REMEDY *What's new?* January 2025

We would like to bring to your attention the following new pages which have been added to Remedy in the last month:

- [Menopause](#) - a team of clinicians working on the Women's Health Hub project have created an extensive set of Remedy guidelines on Menopause. This includes the new Unscheduled Bleeding on HRT pathway which went live on 20th January.
- [Overactive Bladder](#) - this page ties in with the guideline on Management of Overactive Bladder Syndrome in Primary Care in Adults produced by the Urologists at NBT.
- [Lymphadenopathy \(Benign\) in Children](#) - information has been agreed with paediatricians at the Bristol Children's Hospital.
- [Employment Support](#) - provides details of the two services offering support around employment and staying in work. One helps those with mental health issues and the other physical health issues.
- [ICE System for Radiology \(& Pathology\) Referrers](#) - includes information on setting up new users on ICE, non-medical referrers and links to training and FAQs.

The following pages have been updated:

- [Renal referrals \(including urgent referrals\)](#) - information on the routes for renal referrals has been updated.
- [Thyroid Disease & Pregnancy](#) - advice on Thyroid disease and pregnancy has been agreed across both Trusts and circulated to all relevant departments.
- [Dermatology Advice & Guidance](#) - referrers should ask the patient for consent to share photographs with other healthcare professionals and record in it the patient record.
- [Resources for Learning Disability Annual Health Checks and Health Action Plans](#) - various resources on this page have been updated.
- [Audiology \(adults\)](#) - a new AQP provider has been commissioned.
- [Speech and language therapy \(SLT\)](#) - Care Homes across BNSSG can now refer directly for SLT services by Sirona if related to swallowing difficulty.
- [Bladder Symptoms in Children](#) - we have clarified that Sirona Bladder & Bowel service is nurse-led and the nurses cannot prescribe medication.
- [Self care \(paediatric\) & family support](#) - links to Family Support resources have been added.
- [ADHD and Autism](#) - information has been updated on the Right to Choose providers. The spreadsheet, holding full details for both Adults & Children has been updated on all pages.
- [myCOPD App](#)—the myCOPD App is no longer available to new users in BNSSG. Existing users will retain their access.

Please also note changes to the referral process for the following services:

- [Sexual Health Advice & Guidance](#) - LARC and GUM advice are available via eRS. However, there are some problems with the GUM eRS pathway so requests should continue to be emailed. Please see the page for the latest position.

As always, if you have any feedback on Remedy, please use the  button which is available on each individual page on Remedy (top right of the page).

Alternatively, if you have a more general query, please email Vicky.ryan@nhs.net or Dr [Rob Adams](#), ICB Referral Service GP Clinical Lead.

Together we are BNSSG
