

**Subject: Specialised Services Circular (SSC 2588)**  
**Sent on behalf of: Chair of the SW Specialised Service Circular Group**

Dear Colleagues,

Please find attached the following Specialised Services Circular(s):

<b>SSC Number</b>	<b>SSC Title</b>	<b>Trusts approved to prescribe in accordance with the SSC, providing appropriate internal governance arrangements are in place</b>
SSC 2588	<b>NHS England Clinical Commissioning Policy: Sorafenib maintenance for adults with FLT3-internal tandem duplication (FLT3-ITD) acute myeloid leukaemia (AML) undergoing allogeneic haematopoietic stem cell transplantation (allo-HSCT) [URN:2262]</b>	University Hospitals Bristol and Weston NHS FT and University Hospital Plymouth NHS Trust  All South West Acute Trusts for information

**Is an implementation plan required from all SW trusts (regardless of commissioned status) for this SSC? No**

**For all other South West region trusts this is for information only.**

Trusts should ensure that use is registered on the Blueteq system (if appropriate).

Treatment will only be funded where the drugs minimum dataset is fully and accurately populated.

**All Chief Pharmacists**

Dear Colleagues,

**Re: NHS England Clinical Commissioning Policy: Sorafenib maintenance for adults with FLT3-internal tandem duplication (FLT3-ITD) acute myeloid leukaemia (AML) undergoing allogeneic haematopoietic stem cell transplantation (allo-HSCT) [URN:2262]**

I am writing to advise you regarding the funding position on the recently published NHS England Clinical Commissioning Policy (CCP) for Sorafenib maintenance for adults with FLT3-internal tandem duplication (FLT3-ITD) acute myeloid leukaemia (AML) undergoing allogeneic haematopoietic stem cell transplantation (allo-HSCT).

The CCP can be found at: <https://www.england.nhs.uk/wp-content/uploads/2023/11/2262-sorafenib-cc-policy.pdf> NHS England will routinely commission sorafenib from 6th November 2023 in line with the CCP.

In addition, NHS England will commission the use of sorafenib in post-pubescent patients in accordance with the NHS England policy 'Commissioning medicines for children in specialised services'. In this setting, sorafenib should only be requested by and administered in allo-HSCT centres and the use of sorafenib should be discussed at a multi-disciplinary team (MDT) meeting which must include at least two consultants in the subspecialty with active and credible expertise in the relevant field of whom at least one must be a consultant paediatrician. The MDT should include a paediatric pharmacist and other professional groups appropriate to the disease area. Separate Blueteq registration forms for registration of adults and children have been made available.

It should also be noted that sorafenib should be used within the Trusts governance framework as sorafenib is not licensed for in this indication.

In addition:

- Trusts must ensure that they are purchasing sorafenib at the agreed patient access scheme (PAS) discounted price. This discounted price will be applied automatically at point of invoice and applies to all indications.
- The discounted price paid by Trusts remains the same as the existing discounted price.
- Trusts must ensure that only invoices for the drug procurement costs of sorafenib in this indication are invoiced to NHSE and that they are also submitting complete and accurate information via the minimum dataset (MDS). All other on-costs are in block arrangements.
- In line with the terms and conditions included in the NHS Standard Contract and as per the agreement that Cancer Services are commissioned with Trusts, Schedule 6a Reporting Requirements for drugs will apply. Payment of Trust invoices will be contingent on the completion of the MDS record and this information being made available in a timely way.
- Patients must be registered via Blueteq and meet the clinical criteria on the registration form. This letter gives the required one month's notice as per Schedule 2 Part G (Other Local Agreements, Policies and Procedures) of your Specialised Services contract for prior approval for this treatment/indication. From one month of the date specified above, NHS England will only reimburse these treatments for patients that have been confirmed as meeting the eligibility criteria via the formal Prior Approval Scheme (i.e. Blueteq). You may wish to use the prior approval mechanism earlier than this to expedite access to this drug.
- **Payment of Trust invoices will be contingent on Blueteq registration, the full SACT record applicable to the drug being completed and this information being made available in a timely way. Please note there are different Blueteq registration forms for adults and children.**
- Trusts must ensure that local governance aspects (e.g. technical issues, education & training, patient information) have been identified and addressed for all staff groups (as appropriate) in order to permit the safe delivery of this therapy.

Trusts should refer to the CAP portal for further information on the PAS price. The CAP portal is available at <https://nhsengland.sharefile.eu/Authentication/Login>

I would be grateful if you could cascade this information to relevant clinical teams within your organisation to support the consistent adoption of the policy nationally.

With best wishes,

Luke Culverwell  
Deputy Director of Specialised  
Commissioning

Tracey Williams  
Clinical Pharmacist
